Monsanto is a member of several trade and industry groups that represent the agricultural products or biosciences industry, or business community, in matters of common policy interests regarding challenges and issues potentially impacting Monsanto's freedom to operate, with consideration primarily towards any potential impact on farmers and other valued customer groups. Monsanto may not always agree with the position of these broader trade associations, but we acknowledge their value as consensus builders on issues, and recognize that as members, we are committed to voicing our concerns as appropriate through our colleagues who serve on the boards and committees of these groups. Below is a partial listing of our current memberships in trade associations and business groups, classified for purposes of tax rules, as section 501(c)(6) organizations: This information is collected once yearly and reflects expenditures for the previous year. The sponsorships listed include those where we have contributed more than \$75,000 per year:
