

BCO International Toll-Free Number Dialing

Monsanto

International dialing instructions

1. First check to see if there are any dialing restrictions for your country.
2. The telephone you are using must have international dialing capability.
3. Look up your country in the chart below and find your access type and telephone number(s).
4. Follow the directions below to place a call based on the access type for your country.

International Toll-free Service (Direct)

1. Dial your country/carrier-specific telephone number. This call is free.
2. You will be given the option to make your report in English or your own language. You will hear a recorded message in your own language explaining the call process.
3. The first person who speaks to you will be an English-speaking interviewer. He or she will bring into the conference call a translator who speaks your language to assist you in reporting your concern. This may take a few minutes. Please be patient.

AT&T Direct (Two-Step)

1. Dial your country-specific access code to reach AT&T.
2. When prompted, enter the 8xx telephone number to connect to The Network.
3. You will be given the option to make your report in English or your own language. You will hear a recorded message in your own language explaining the call process.
4. The first person who speaks to you will be an English-speaking interviewer. He or she will bring into the conference call a translator who speaks your language to assist you in reporting your concern. This may take a few minutes. Please be patient.
