WEATHER EVENTS

It's looking like a dry growing season!

Did you rent a jet pump irrigation system?

IF YES

Awesome!
You're in good shape.

IF NO

After a month of drought the prolonged
hot sun is destroying your crops.

**SUBTRACT 30 from your
yield due to drought.**

WEATHER EVENTS

Prolonged dry weather is causing your seedlings to die.

Did you purchase hybrid seed technology?

IF YES

Great decision, your seedlings are using
the little amount of water efficiently.

IF NO

If no, your seedlings need moisture.

SUBTRACT 10 from your yield.

SUBTRACT 10 from your yield.

POSITIVES

The weather is in your favor this growing season! Perfect amount of rain, perfect temperature for healthy corn.

POSITIVES

It's harvest time! And your crops are right on target.

POSITIVES

Your neighbors had extra manure from their livestock, and you're able to use it as fertilizer on your crops. This will enable your plants to receive the nutrients they need!

OTHER CHALLENGES (Associated with Nature or Technology)

Uh oh. You have an infestation of weeds.

Did you hire manual labor to help remove the weeds? - OR - Did you buy herbicide?

IF YES

FOR HERBICIDE

You're ahead of the game!
Your herbicide application killed all the weeds.

FOR LABOR

In the time it took to weed your land you lost some crops.
SUBTRACT 2 from your yield.

IF NO

Unfortunately the weeds are taking over your crops.

SUBTRACT 5 from your yield due to weeds.

OTHER CHALLENGES (Associated with Nature or Technology)

OTHER CHALLENGES (Associated with Nature or Technology)

You have a high infestation of stem borers!

Did you buy insecticide?

IF YES

After applying insecticide, it looks like you won this battle!

IF NO

Unlucky, stem borers are devastating to corn crops.

SUBTRACT 15 from your yield due to stem borers.

SUBTRACT 15 from your yield due to stem borers.

OTHER CHALLENGES

(Associated with Nature or Technology)

Unfortunately, the infrastructure doesn't exist for you to safely store your harvested crops. Without this option your crops are susceptible to damage from pests and the elements.

SUBTRACT 30 from your yield.
